Education

Ulsan National Institute of Science and Technology (UNIST)
B.S. in Physics

Ulsan, *Republic of Korea*
March 2024 – Present

Research Interests

- Quantum Information Theory, Quantum Metrology, Quantum State over Spacetime
- Mixed State Topological Order, Anyon Theory

Research Experience

Quantum Information Theory Group

UNIST

Undergraduate Researcher(Advised by Seok Hyung Lie)

June 2024 – Present

- **Research Topic:** Quantum Metrology, Quantum State over Spacetime

Topological Matter Theory Group

KAIST

Undergraduate Researcher(Advised by Gilyoung Cho)

June 2026 – Present

- **Research Topic:** Mixed State Topological Order, Anyon Theory (related to Quantum Error Correction Code)
